Keeping the U.S. safe and improving our diplomacy efforts around the world

## Legislative Accomplishments

Congressman Moore strongly believes that we must maintain a solid line of communication with our neighbors in the global community. That's why he:

- Serves as a member of the U.S. delegation to the **NATO Parliamentary Assembly**, a critical forum for international dialogue on security, political and economic matters.
- Actively supports a **policy in Iraq** that requires the Iraqis to stand on their own and allows them to assume responsibility for their own government.
- Urges the U.S. and their allies to handle the **Iran nuclear crisis** through direct negotiations rather than threatening military force.

## Current Agenda

Congressman Moore is focused on the following legislative items:

- Continuing to encourage U.S. **diplomatic solutions** to find a resolution to the ongoing Arab-Israeli conflict.
- Supporting initiatives designed to help **combat AIDS and the spread of HIV** on a global scale.
- Urging the global community to recognize the atrocities happening in **Darfur** and do their part to **assist innocent, displaced people** around the world.

## President Obama

Congressman Moore looks forward to working with the Obama Administration to address the issues facing our global community and regain the stature of the U.S. in the world. This includes:

- Renewing American **diplomatic efforts**.
- Using **NATO assistance** in solving violent situations in Middle Eastern countries.
- Ensuring the use of **dependable intelligence** sources when dealing with hostile foreign countries.
