

SENIOR CITIZENS

Ensuring the our seniors receive the benefits they were promised

Legislative Accomplishments

Congressman Moore strongly believes that we must honor our senior citizens and make retirement easier for all Americans. That's why he:

- Introduced legislation, now law, to increase the amount individuals can contribute annually to their **Individual Retirement Account**.
- Authored legislation to allow the Sec. of Health and Human Services to negotiate lower **prescription drug prices** on behalf of Medicare beneficiaries.
- Introduced legislation to promote honest budgeting practices, ensuring that **Social Security funds** are protected and spent only for their intended purpose; not to hide the federal deficit.

Current Agenda

Congressman Moore is currently working on the following legislative items:

- Protecting and **strengthening Social Security** for current and future generations.
- Addressing the current **Social Security Disability backlog** so that all beneficiaries get the benefits and service they deserve in a timely and professional manner.
- Providing outstanding **assistance for constituents** who have questions about or encounter problems with Social Security or Medicare claims.

President Obama

Congressman Moore looks forward to working with the Obama Administration to address issues facing our senior citizens.

- Working to ensure the long-term **solvency of Social Security and Medicare** so that current and future generations receive the benefits they worked so hard to receive.
- Protecting **Social Security Trust Funds** and ensuring that they are no longer used to hide our federal deficit.
- Strengthening the **Age Discrimination in Employment Act**.
